MTCS Waiting Pool Information

MTCS Waiting Pool Policies and Procedures

Thank you for your interest in Middle Tennessee Christian School! When a grade level has limited or no openings, a waiting pool is established. Inclusion in the waiting pool is not a guarantee of class placement. As openings become available, class placement will occur based on the student selection criteria listed below.

Requirements for Waiting Pool Registration:

- Submit a completed application for admission.
- Pay \$75 application fee.
- Submit all admissions documents and records including files from previous schools.
- Successfully complete admission testing.

Student Selection Criteria:

Selection for class placement is determined by the admissions committee. Factors include mission appropriateness, academic and behavioral records, siblings enrolled, number of applicants in a family, gender balance in grade level, alumni child, contribution of the applicant to the student body, etc.

A new waiting pool will be created each academic year if needed and will require a new application.
